PROJECTS

Budget Tracking Web Application

In this web dev project, I utilized HTML and CSS to craft an engaging user interface and design. Employing HTML for structuring content and CSS for styling, I created a well-organized portfolio with multiple tabs and clicks, enhancing user experience. The thoughtful use of these technologies ensures a visually appealing and seamlessly navigable showcase of my web development skills and projects

Web Portfolio

In this web dev project, I utilized HTML and CSS to craft an engaging user interface and design. Employing HTML for structuring content and CSS for styling, I created a well-organized portfolio with multiple tabs and clicks, enhancing user experience. The thoughtful use of these technologies ensures a visually appealing and seamlessly navigable showcase of my web development skills and projects.
